

~~SECRET~~

The following note was attached to original (approved) copy of program:

MR. DULLES:

In order to provide a small corps of instructors with proven teaching ability, Matt Baird proposes to recruit qualified, experienced teachers, give them essential training, and then place them in selected assignments in DD/I, DD/P, or DD/S components for a two-year period, following which they would return to the Office of Training to teach. I believe that his idea is sound and that I should approve; however, in view of the fact that it does mean an eventual increase of twenty positions in his personnel ceiling I wanted to acquaint you with the problem before telling him to go ahead.
